## Cancer Crusade Off To Good Start

"Without our volunteers we cannot achieve our goal in this campaign," declared Mrs. E. R. Burns, Crawford County Cancer Society campaign chairman; as the 1953 Cancer Crusade goes into it's third week.

The chairman, a volunteer herself, said, "When I talk about volunteers, I am referring to doctors, teachers, nurses, bankers, shopkeepers, housewives, school boys and girls—almost any one you can think of—because they all have a stake in this great fight."

"The Crawford County Unit is aiming to raise \$500 this year. This means person to person contact. It is only through talking with a person that the complex problem of cancer can be presented, with the most force."

"And when we talk with people during April, we are not merely asking for money, as important as that is. We are telling them of our educational program, of how they can watch for the danger signals, of how they can save their own lives, perhaps, and those of their loved ones by alertness and prompt action."

The money raised in Crawford County will be used for the year-around program of education, service and research. This means preparation of educational material for distribution, the provision of dressings and other sick room comforts to cancer patients being treated at home, the contribution to the \$4,100,000 research program which will ultimately find the answer to cancer.

Persons or groups interested in aiding the Society may contact Mrs. Burns at Grayling, Mich.

## Bowling Alley Drive Falters

With but two weeks left to go to a May 1 deadline and with slightly more than half of a needed \$35,000 in loans subscribed, the Grayling Legion Post drive for loans to build an eight lane community bowling alley was faltering and it began to appear as though the plans might have to be abandoned.

Legion committees for the financing and building were very discouraged over the apparent lack of interest shown by merchants, bowlers and citizens in the proposed addition to the city.

Even in the face of the possibility of dropping the plans, the committees went on with their work.

## Enriching The Nation

In a recent three-year period 1,300,000 people bought shares for the first time in American corporations.

Over 1,000,000 people own shares in one public service company. Close to 490,000 own shares in a single automobile manufacturing concern. And in a leading electric utility, one out of each four employees is a shareowner.

This means, of course, that the people concerned have faith in the future of American enterprise — and they have faith in the free system which makes American enterprise the driving, dynamic thing it is.

Stock exchanges are needed because that faith exists, and that has been so ever since this Republic was founded. The New York Stock Exchange began when Washington's government issued stock to help pay for the Revolutionary War and it was necessary to establish a market where securities could be resold. Since then, stock-selling has been the means of raising the money to produce goods and services of every conceivable kind — the goods and services which are the tangible evidence of our unequalled living standards.

It has been accurately observed that "Investors leave the nation richer than they found it." And today, happily, their number is increasing and totals many millions.

**Denver, Colo., Mining Record:** "The events leading up to the 'nationalization' of gold actually amounted to the robbery of a trusting, hard-working people who have as a result lost not only their gold but more than half of their savings, pensions, life insurance, etc. The government had not one more whit of right to seize gold than it had to seize the steel properties."

EMTA Distributes

The new 1953 EMTA Guidebook, "Playtime," is now off the press and being distributed, according to Frank Davis, EMTA Secretary-manager. He said that the 50,000 copies will be used primarily to supply inquiries coming in by mail as a result of EMTA and Michigan Tourist Council advertising. The book is 128 pages and contains a full color cover, a complete writeup on every county within the area plus a special feature section and an "Eat, Sleep and Shop Directory."

32% Jump in Volume  
Makes Price Cut Possible!

**DETROIT:** In announcing lower truck and car prices, L. L. Colbert, president of Chrysler Corporation (builders of Dodge "Job Rated" trucks) said:

"Since the first of this year, Chrysler Corporation has built out in the corresponding period last year under government control. With the spring selling season just beginning, our dealers are already setting a pace more than 50% ahead of last year."

"We are very pleased that we can take this action so shortly after the new administration's prompt ending of price controls and trucks for the automobile industry freedom to build the competitive market."

"These lower prices indicate Chrysler Corporation's confidence in the wholesome effects of these moves."

"Now that higher volume is being achieved and we may reasonably expect it to continue, we are lowering prices accordingly."

## YOUR MILK...

You are rich, if you can enjoy the scenery without owning it. You are rich, if you are known to have a good character, your honesty is not questioned and you have a pleasant disposition.

You are poor even with millions in money, if you are snobbish and have a poor character and none will trust your honesty.

You are great, if you can feed other minds with hope when they no longer have faith in themselves. You are great if you were born with a humble birth and attain a high station in life without losing the common touch.

You are worthless if you live by the labor of others by your own choice and envy what others have that you do not earn.

If you want to make your money go further, then buy more Crawford County produced milk at Hunter's AuSable Dairy. Try it. It's good.

What's new about "TT" DYNAFLOW?

## The TAKE-OFF'S TERRIFIC!

It's only fair to warn you.

When you try a new Buick with the sensational Twin-Turbine Dynaflo Drive,\* you'll tingle all over with thrill.

You'll sweep your speedometer needle from zero to 30 mph so quickly, you won't have time to breathe but twice. You'll move from a standing start to legal speed so quietly, you'll practically hear your heart beat. You'll experience such complete and utter smoothness every step of the way, you'll be wholly relaxed, refreshed, and ready for more.

This is not dream stuff. This is real.

This is what actually happens when you're at the wheel of a new 1953 Buick with TT Dynaflo.

Twin Turbines in the Dynaflo unit, instead of just a single one—in addition to other engineering advances—make the tremendous difference.

So you feel a firmer and more immediate "take hold"—get far faster getaway, new

quiet and efficiency, plus infinite smoothness to and through every speed range.

There's a lot more to be had, of course, in these great new Buicks. Higher horsepowers and compression ratios. A still finer ride. Easier handling. Improved visibility. More comfort and richer interiors.

But start with take-off—the greatest in Buick's fifty great years—and learn the rest of the story from there. Can you drop in on us this week?

Meeting called to order by the Chairman Corsaut.

This meeting was called for the purpose of considering and discussing the requests as presented by the Crawford County Employees Committee on February 9, 1953, namely hourly wage rates, paid sick leave and paid vacation time.

In the matter of hourly wage rates the Board believes it is consistent with other surrounding Counties, and that the rates of wages paid to hourly workers compared to the total income to the County from present Highway funds is within the limits of sound financing.

In the matter of the present paid sick leave plan, it is felt that the change from last year was made to better suit the request of the Employees representative, and should remain as it is.

In the matter of paid vacation time, the Board feels that they can not make any change from the present plan.
